

355 HTS

PROJECT

The Galeon 355 Hts was designed to offer an exciting and sporty look in a compact frame without compromising the interior space available to the passengers.

The striking exterior fits well with the other third generation Galeon models thanks to its large glass panels and edgy lines. Both the main deck and cabins down below are bright and inviting and sure to make all the guests welcome.

The cockpit area is fitted with helm station, settee complete with a table and a wet bar as well as an aft facing

sundeck. Down below find a compact saloon with galley, bathroom and two separate, double guest cabins.

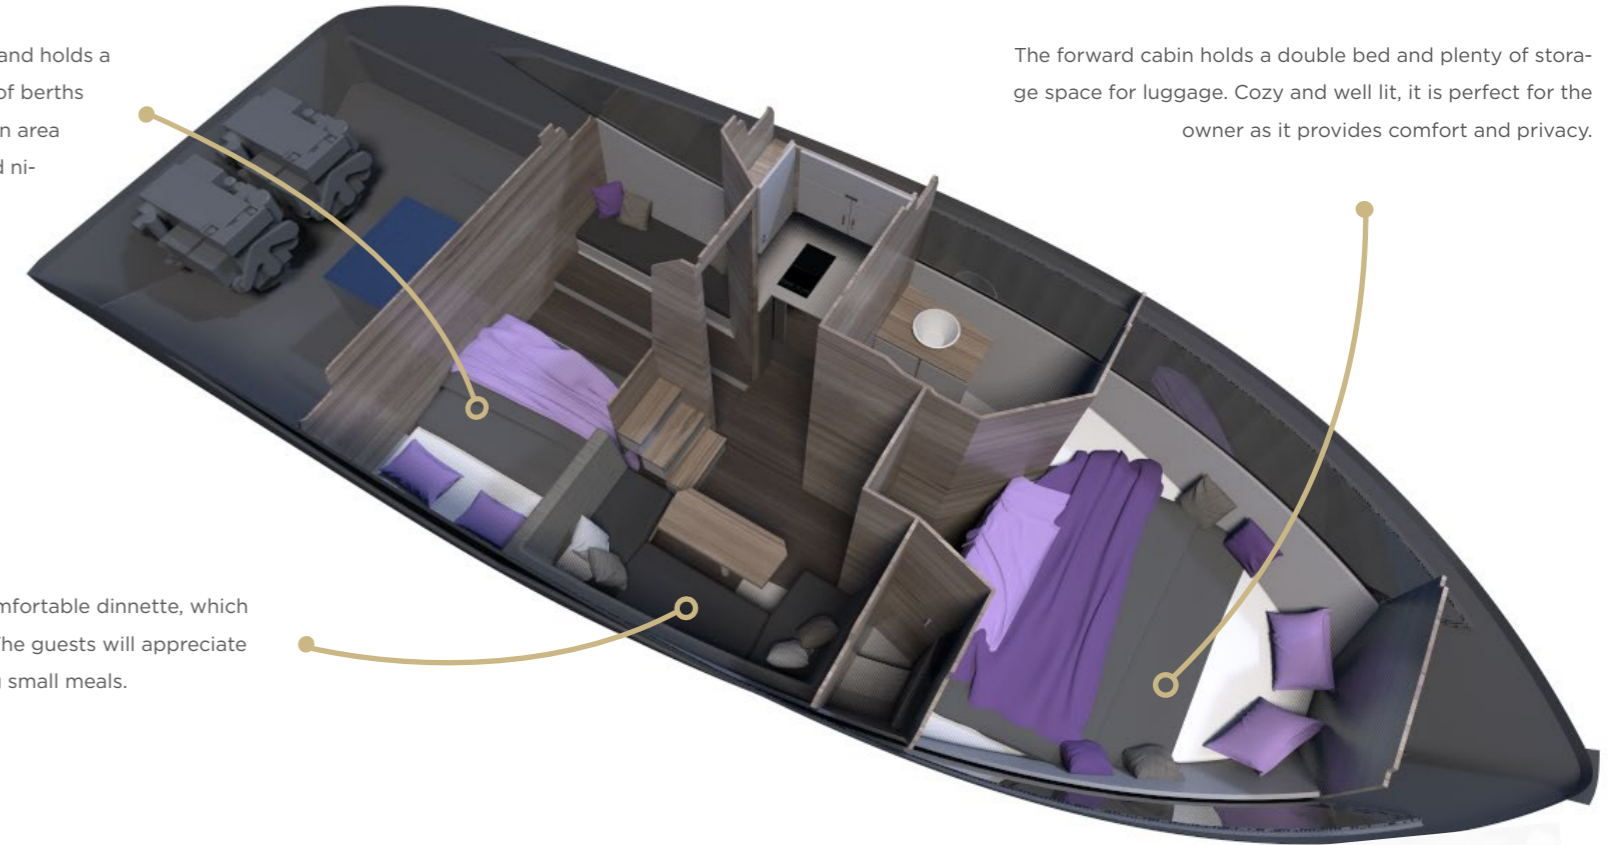

This agile and compact model is set to join the Galeon third generation of yachts soon.

The guest cabin is located midship and holds a double bed extending the number of berths to four. It is separated from the main area by a full-sized door ensuring a good night's rest.

Down below the saloon offers a comfortable dinnette, which can be turned into an extra berth. The guests will appreciate the compact galley when preparing small meals.

The forward cabin holds a double bed and plenty of storage space for luggage. Cozy and well lit, it is perfect for the owner as it provides comfort and privacy.

The 355 Hts is a quick and nimble cruiser

Select the open bow layout for more space in the living area and a larger galley
